Developing Contingency Plans
Developing Contingency Plans

As with any plan, sometimes situations occur that will change the way things were meant to happen. This section of the guide will provide you with a list of things the team may want to develop contingency plans for:

Develop contingency plans for the following:

1) Absences of Key Personnel. Written Plans are a way to keep continuity in case any staff are absent or must be away from the class or student for meetings, trainings or illness. These written plans (substitute plans) should be specific for the student and outline any strategies, language, break schedules, etc. currently in place for the student. The plans should be reviewed and updated monthly.

   ____ Substitute plans for
   ______ the general education teacher
   ______ the special education teacher
   ______ the paraprofessional
   ______ the speech language pathologist
   ______ the occupational therapist
   ______ the physical therapist
   ______ the nurse
   ______ peer
   ______ other__________________

2) Emergency Plans/Evacuation Plans/Health Plans. Emergency plans include information that will assist school administrators, teachers, special education staff, parents, and students in planning for the support that may be required for students with special needs in the event of an emergency. In addition, creation of an Evacuation Plan cover the evacuation, transportation and medical needs of students who will require extreme special handling in an emergency. In most cases, additional safeguards must be established regarding roles, responsibilities and procedures for students with physical, sensory, emotional and health disabilities.

   ____ Emergency/Evacuation plans for
   ______ fire
   ______ tornado
   ______ earthquake
   ______ unauthorized intruder
   ______ armed intruder
   ______ back up Health Plan
3) Field Trips are an important part of all students’ school experience and being adequately prepared is essential. All components of the student’s specific needs are reviewed and accounted for during the planning process. Some things to consider include:

- Field trips
- Transportation
- Wheelchair lift
- Planning for accessible routes to buildings
- Adult support
- Medications
- Food (allergies or necessary snacks)
- Sensory breaks
- Sensory equipment
- Visual schedules or social stories
- Emergency contacts

4) Equipment Failure – As technology is a vital component of many students’ access to education, contingency plans outline the steps in the case of any equipment failure.

- Equipment failure
- Augmentative communication device
- Assistive technology device
- Wheelchair
- Computer
- iPad
- Hearing aid
- Other _______________________
5) Non-Violent Crisis Intervention and Positive Behavior Intervention – One of the biggest obstacles for our students to successful inclusive experiences is Behavior Regulation. In what ways are we ensuring that the team is trained in both Non-violent Crisis Intervention and in Positive Behavior Support.

_____ Non-violent crisis intervention
   _____ training provided to staff
   _____ staff identified to intervene
   _____ documentation method determined

_____ Positive Behavior Intervention
   _____ training provided to staff
   _____ Positive Behavior Intervention plans developed

Transportation

(Please note, Transportation as a Related Service (TRS) project team is actively creating a process and checklist and will be incorporated upon completion.)

When planning for an inclusive education for students, there are transportation issues the team may need to address.

Transportation should:
   (1) Promote the development of peer relationships
   (2) Provide for functional, age-appropriate learning opportunities within the community
   (3) Contribute to students’ participation in extra-curricular activities.

The following is a list of effective transportation practices that will support students with disabilities as they fully participate in general education and extracurricular activities:

_____ Students with and without disabilities wait at school bus stops together and ride to and from school on the same bus.

_____ The student will arrive and depart from school at the same time as the other students.

_____ The student rides the same school bus that neighborhood students ride.

_____ Involve transportation staff in all or part of inclusion planning.

_____ Determine transportation services according to student need, residence, and district transportation practices.

_____ Assess the level of transportation support needed by individual students such as:
   _____ wheel chair lift on bus
   _____ seat belt
shoulder harness
special arrangements for behavioral or medical management
preferential seating
Provide individualized support and assistance for students on school buses if required.
The Special School District Transportation Department staff is available to provide training to local school district personnel in techniques for transporting students with disabilities, as well as awareness and disability-specific training. For information, call the Director of Transportation at 989-8160.
Plan for transportation for community-based instruction.
Plan for student participation in and transportation to extra-curricular activities such as: clubs, dances, after school recreation/day care programs, scouts, etc.
Plan transportation for student to participate in school field trips.
Identify training and/or consultation needs with transportation staff.
Develop a safety plan specific for the student’s unique needs related to transportation. Considerations might include additional emergency bus training for the student, how to access the bus, crossing the street, etc.
Plan for proactive approaches for possible bullying concerns. Some possible accommodations include preferential seating, socials skills training, and awareness training. Please work with your specific district regarding bullying interventions and practices. In addition, please also consider contacting PBIS - http://pbiscompendium.ssd.k12.mo.us/
