

Ladue School District

In order to help us more efficiently partner and support all students and teachers, we ask that you fill out the following information prior to our meeting so we can get a sense of the current state within your district. Feel free to state the current state and plans that may be in place for changing that current state.

What is your current status? (these questions have been adapted from the Missouri State Literacy Plan)

What structures are in place in our schools/district for us to share responsibility for student literacy, numeracy and social emotional achievement? (see Tiered Model template)

- *MTSS/RTI---SST (Student Support Teams)
- *Grade Level PLC---
- * Social Emotional Behavioral (SEB) Team
- * Reading and Math Specialists
- * Instructional Coaches

How do building/district leaders support literacy, numeracy and social emotional instruction across the curriculum and for all students?

*The Curriculum and Instruction department, (Asst Superintendent of C&I, ELA and Social Studies Curriculum Coordinator, STEM Coordinators, Gifted Coordinator, Diversity Equity and Inclusion Coordinator, Assessment Specialist, Instructional Coaches (K-12) is responsible for the development and maintenance of all educational programming and curriculum throughout the Ladue Schools. Other responsibilities include: Research and implementation of new programming, Professional development and educational alignment tools, Intervention programs and Gifted programming, assessments, curriculum and acceleration programs.

What supports are in place to sustain evidence-based practices in literacy, numeracy and social emotional development?

*MTSS/RTI: Tiered Interventions (Reading, Math, and SEL)

How does our school/district provide support for all teachers to ensure professional growth in literacy, numeracy and social emotional development?

*Professional Development/Learning, Grade level PLCs, Support from District Coordinators and Instructional Coaches.

* Part of the district evaluation tool

* Content meetings (K-4); Department meetings (5-12)

How do we ensure our written/taught/learned curriculum is aligned to the Missouri Learning Standards expectations?

The written/taught/learned curriculum is aligned to the MLS through the curriculum writing process. The district has also established priority standards (K-12) in core content areas.

*The Curriculum and Instruction Department believes that quality curriculum and instruction should provide the following characteristics:

- Student Led Inquiry
- Equitable experiences and opportunities for all students
- Opportunities for students to demonstrate complexity of thought (solve real world problems)
- Common but creative experiences, using the standards as guideposts
- Honor the voices and stories of our students
- Provide every student the opportunity to learn something new every day

These values are at the core of all of our work and provide the guideposts for all of our decisions in regards to curriculum, instruction and assessment.

What collaborative structures do we have in place to ensure Missouri Learning Standards expectations are the foundation of the written curriculum?

*Curriculum Committees are in place and supported by Assistant Superintendent of C&I, District Curriculum Coordinators, Teachers, and other Stakeholders.

What are our processes to write, review, revise and adopt curriculum? How is special education included in this process?

*Curriculum process documents (vision template, unit template, scope and sequence and curriculum checklist)

* Curriculum checklist uses the curriculum vision document. This document is used to develop, review, and revise curriculum. Special education is represented on this committee of stakeholders.

Curriculum Checklist

Curriculum Vision Document (Less of this.... More of this...)

Goals for Graduates (Philosophy-here is what we will accomplish)

A. Social Studies Example:

- a. Social studies in the Ladue School District strives to prepare the next generation of engaged and informed citizens who are contributing members of an interdependent world through:
 - i. critical and reflective thinking
 - ii. personal and civic decisions based on multiple perspectives
 - iii. skills necessary for lifelong learning and adaptability in a changing world
 - iv. civil discourse
 - v. social responsibility

Power Standards (Leverage, Endurance, Success in School)

Unit Scope and Sequence (top document that leads to everything else)

Unit Template: outlines essential understandings, skills and knowledge that all students will master.

How do we ensure instruction within the comprehensive literacy, numeracy and social emotional curriculum meets the needs of each student?

*Curriculum process documents how needs are met (vision template, unit template, scope and sequence and curriculum checklist) As far as ensuring this process is followed, expectations are set at the District level and the building level by individual principals are directly responsible for ensuring those expectations are followed. There are no systems of accountability outlined.

* Reviewing benchmark data with PLCs to determine student achievement and next steps for meeting student needs

How do we select quality resources and provide teachers with the training to implement them effectively? How are Special education teachers included in this process?

*The C&I Department Coordinators meet with the Assistant Superintendent of C&I to outline the process for selection of resources and recommendations for related professional learning. Special education teachers are included in the curriculum writing process for collaborative teaching. This includes research and investigation of quality resources and outlining the professional learning required for fidelity of implementation.

How have we developed an effective and coherent assessment system in our classrooms/buildings/district?

*The district continues to analyze the amount of time currently used for formative and summative assessments compared to the instructional value of the assessments for planning effective instruction. There were some changes made prior to the 2019/2020 school year to be assessed.

* Utilization of NWEA and Fastbridge assessments

* Addition of a District Assessment Specialist

How do we use ongoing classroom formative and summative assessments, district benchmarks and state-required assessments?

*Gathering accurate student data and using that information to quickly adapt and adjust instruction. Structures to support data review and analysis: PLCs, Sped Data Teams, Building Student Support Teams

How do we determine which assessments to use in our classrooms/ buildings/district?

*Assessments are aligned to the power standards.

*Use of the MTSS committee to review/revise the Assessment Plan but we talk about what the correct assessments are as part of the C&I department planning. For classroom assessments, we are currently building common formatives into our new curriculums but prior to that there was no guidance on classroom assessments district-wide.

* Assessments have been added to meet state dyslexia guidance.

How do we help all educators become assessment literate?

* Support from Assessment Specialist

* Data review meetings

* Creation of a framework for PLCs to use data

*Professional Development

*Classroom Walkthroughs/Observations and Feedback

*Collaboration/Support from District Specialists

How do our programs and practices engage families/partners in literacy, numeracy, and social emotional development?

*Curriculum Nights: Teachers present on curriculum, essential learning, and expectations for students. Special education staff are included in how special education supports the general education environment.

*Committees to include Parents, (i.e. Diversity, Equity, and Inclusion and C&I Board Advisory)

Definitions:

Reading/Literacy Tier One: Core should include: Academic language (vocabulary; inferencing; narrative language); Phonemic Awareness (K-2 until mastered); Phonics; (including advanced phonics);

Sight Words; reading connective text (accuracy, fluency, comprehension); Comprehension skills should include activating prior knowledge,

predicting, questioning, clarifying or questioning and monitoring; inferencing; retelling and summarizing; identifying and using organizational text structure and encoding of how language works. Assessments: universal screenings to see who may be at risk and monitor progress on grade level -differentiated instruction based on results; benchmarking suggested at least 3 times per year.

Reading/Literacy Tier Two: Provide intensive, systematic instruction on **up to three foundational reading skills** in small groups to students who score below the benchmark on universal screening. Typically these groups meet between three and five times a week for 20–40 minutes Should be very focused on explicit instruction of foundational skills
Assessment: progress monitor at least monthly to determine progress and need

Reading/Literacy Tier Three: Provide **intensive instruction daily that promotes the development of various components of reading proficiency to students** who show minimal progress after reasonable time in tier 2 small group instruction (**increase frequency or intensity from tier 2**)

Assessment: progress monitor weekly
