

THE SCHOOL DISTRICT OF
UNIVERSITY CITY

Transform the Life of Every Student Every Day!

What is your status? (These questions have been adapted from the Missouri State Literacy Plan)

What structures are in place in our schools/district for us to share responsibility for student literacy, numeracy, and social emotional achievement? (See Tiered Model template)

Elementary: Care Team meetings, MTSS in development-Intervention groups for literacy and numeracy (LION time), partnership with Alive and Well, Wyman, Lutheran Family services.

Secondary: Care Team meetings in development, Wyman supports including Teen Outreach Program support for 7th and 8th Grade, Intervention groups for literacy and numeracy, partnership with Alive and Well, Lutheran Family services.

How do building/district leaders support literacy, numeracy, and social emotional instruction across the curriculum and for all students?

Gen ed/Sped Work to plan and implement PD (Professional Development) (district professional development plan) around literacy, numeracy and social emotional learning, Work with Effective Practice Specialist to conduct walkthroughs specific to the area of focus (Social Emotional and Autism). Transformational Leadership Institute - vertical administration/teacher team focused on instructional leadership. Data conversations around common assessment tools.

What supports are in place to sustain evidence-based practices in literacy, numeracy, and social emotional development?

Coaching conversations and feedback, providing release time for training, have the content specialist come in to work with students. Weekly Professional Learning Community (PLC) meetings, staff meetings, district walk-throughs, Student Engagement data collection for analysis; Instructional Support Leaders/Instructional Coaches to support all areas of instruction. Teachers engage in professional

--	--	--

development (district professional development plan) around literacy, numeracy and social emotional learning and apply the concepts to their classrooms. Effective Practice Specialists visits with training and resource suggestions for Social Emotional and Autism programs,

How does our school/district provide support for all teachers to ensure professional growth in literacy, numeracy, and social emotional development?

Focused teacher growth plans, access to PD, coaching conversations, one on one training with resources; provide administrative and instructional coach support

How do we ensure our written/taught/learned curriculum is aligned to the Missouri Learning Standards expectations?

Walkthroughs, Observations, Coaching Conversations, Teacher training on standards, teachers participating in collaboration meetings, data analysis procedures

What collaborative structures do we have in place to ensure Missouri Learning Standards expectations are the foundation of the written curriculum?

Curriculum coordinator implements the process with representatives from content area as well as support areas (EL, SPED, Coaches, Instructional leaders, Gifted)

What are our processes to write, review, revise and adopt curriculum? How is special education included in this process?

Convene committee as stated above; study standards/research content area; ground self in mission, vision, and goals of the area, set up criteria for resources and evaluate resources to select

How do we ensure instruction within the comprehensive literacy, numeracy and social emotional curriculum meets the needs of each student?

Data Analysis, Fastbridge, Reading Inventory (HS), Galileo, Common Assessments., Progress monitoring and adjusting to what the data tells us. Regular scheduled data team meetings for special education teams to discuss growth or lack of growth.

How do we select quality resources and provide teachers with the training to implement them effectively? How are Special education teachers included in this process?

--	--	--

The Curriculum Committee sets up criteria for resources and evaluates resources to select and professional learning is a part of the implementation plan.

How have we developed an effective and coherent assessment system in our classrooms/buildings/district?

District leadership decides needs for the assessment and a committee is formed to select the tools.

How do we use ongoing classroom formative and summative assessments, district benchmarks and state-required assessments?

Use the assessment data to drive instructional decisions; protocols are provided for analyzing the district data. Data could be analyzed through professional learning communities, data teams, school level teams, content area teams

How do we determine which assessments to use in our classrooms/ buildings/district?

The assessment plan and calendar- does not include all assessments for special education; common assessments are built in throughout the curriculum for general education

How do we help all educators become assessment literate?

Assessment for Learning; training for instructional leaders -complete for Gen ed. SSD (Special School District) continues to work with Classroom Learning Systems and trains all teachers in this process and works with SSD data team leaders on structures to analyze and respond to data.

How do our programs and practices engage families/partners in literacy, numeracy, and social emotional development?

Provide opportunities to learn about programs and learn through activities with their children, provide opportunities for home/school connections to continue the learning at home. Curriculum nights across the districts to highlight curriculum and materials being used, multiple programs for social emotional learning (Umbutu); STEM expose activities; Title I family meetings; Parent University; Zoom with the Superintendent to receive voice of customer, student-led IEP (Individualized Education Program) process and charting the life course to partner with families for future planning.

Definitions:

--	--	--

Reading/Literacy Tier One: Core should include the following: Academic language (vocabulary; inferencing; narrative language); Phonemic Awareness (K-2 until mastered); Phonics; (including advanced phonics); Sight Words; reading connective text (accuracy, fluency, comprehension); Comprehension skills should include activating prior knowledge, predicting, questioning, clarifying or questioning and monitoring; inferencing; retelling and summarizing; identifying and using organizational text structure and encoding of how language works. Assessments: universal screenings to see who may be at risk and monitor progress on grade level - differentiated instruction based on results; benchmarking suggested at least 3 times per year.

Reading/Literacy Tier Two: Provide intensive, systematic instruction on up to three foundational reading skills in small groups to students who score below the benchmark on universal screening. Typically, these groups meet between three and five times a week for 20–40 minutes and will focus on explicit instruction of foundational skills and assessment and progress monitor at least monthly to determine progress and further support.

Reading/Literacy Tier Three: Provide intensive instruction daily to promote the development of various components of reading proficiency to students who show minimal progress after reasonable time in tier 2 small group instruction (increase frequency or intensity from tier 2) Assessment: progress monitor weekly
